VULCAN ADVOCATE

VOL. V, No. 44. VULCAN ADVOCATE, May 29th, 1918 PRICE $1.50 PER YEAR

RED CROSS DANCE WAS A BIG SUCCESS

$174.50 Raised for the Cause. Big Crowd in Attendance.

The Red Cross dance given at the Odd Fellows hall last Friday night was one of the best dances that the society has ever given. Over 250 people were present.

The supper was provided by the members of the Vulcan Rebekah lodge, and their catering was done in the usual first-class style. The Red Cross society takes this opportunity of thanking the Rebekah lodge for their great contribution towards the success of the evening. Klebe's 5-piece orchestra supplied the music. During the evening Miss Beaubier rendered saxaphone selections which were heartily appreciated.

The financial statement of the dance is as follows; receipts $261, expenses, music $55, hall rental $23, advertising $8.50. Balance $174.50.

City Teams to be Asked for Games

The management of the local baseball team are at present trying to arrange fixtures with baseball teams from Calgary, Lethbridge and Medicine Hat. If successful games will be played both here and on the home diamond of the three teams.

The management are arranging these games in order to give the local baseball fans a better class of games. Vulcan has a splendid team this year, if anything, better than the other teams in the league and it has been suggested that the home team should clash with something more on their level. Vulcan baseball enthusiasts may therefore confortably look for some real baseball excitement in the near future. Further announcement regarding arrangements will doubtless be made next week.

Don't Forget Early Closing In June

In order that there shall be no disappointment residents in and around Vulcan, they are asked to remember that early closing on Wednesdays of all places of business in Vulcan will commence on the first Wednesday in June and continue until the end of August. The hour of closing will be one o'clock.

Arrowwood News

The two sons of Mr. and Mrs. G. T. Jones have joined the Strathcona Horse, as also has Boydon Ingram.

Mrs. J. K. Goldthorpe was a visitor to see Mrs. Knowles of Vulcan, on Thursday evening.

Mrs. D. Richards from Gleichen, is going to reside on their ranch in this district.

Change in R. M. Service

Recent changes in the delivery of Rural Mail services from Vulcan post office are as follows: R. R. No. 1 west, Wednesday and Saturday at 8 a. m.; R. R. No. 2 Hearnleigh and Arrowwood, Wednesday and Saturday at 8 a. m.; Reid Hill, Lawndale and Armada, Monday and Thursday at 8 a. m.

Directors Meeting.

A meeting of the Directors of the Agricultural Society will be held on Saturday, June 1st in the basement of the I.O.O.F. hall at three o'clock. The business of the meeting will be to prepare the prize list for the fair on August 3rd.

All interested persons are invited to be present.

Red Cross Picnic & Dance

The members of the Alston Red Cross Society are holding a picnic and dance on Monday, June 3rd.

The picnic will be held at the home of Mr. Meecham and the dance at the Alston School house in the evening.

The Hour Grain company is to build an elevator at Blackie.

Women Foresters, who are doing splendid work in Britain, as they appear on parade in London.

FARMERS U.F.A. SERVICE WAS WELL ATTENDED

T. J. North Delivers an Address on the Present Day Problems of the Farmers.

Despite the threatening weather which did not produce the storm long wished for, a splendid turnout of men and women of the farming district, members of the U.F.A. foregathered at the Vulcan church to hear Mr. T. J. North, of Parkland, one of their own speak on the problem, religious and socially of the farmer.

In an address scintillating with brilliant epigram, and bedecked with poetic phrase, the speaker in fine voice and earnest tones gave a void description of the high station of the ancient agriculturalist. By the way of contrast he shows the present position of the farmer to be one of climbing up from a lowly and somewhat despised position to that of assuming a political power, an intellectual plane, and a social prestige that once belonged to him by inherent worth of his vocation.

There were problems in the reconstruction of society under the shakeup of world events that particularly demand the attention of the farmer both from a religious and mental stand-point, as well as economic. He went on to show that none of the great problems are ever settled without some reference to the religious aspect of life. After all human rights and brotherhood ideals had their roots in religious concept. It should be the aim of the farmer to get out of the rut of selfish individualism and he known as "one that serves" the farmers Sunday idea is gaining wider acceptance every day.

Population of Vulcan 675

Mr. Fidler, inspecting auditor of the provincial department of municipalities was in town at the beginning of this week, and went into the recent census figures which were taken by the council. When all was audited and found correct, the population of Vulcan is shown to stand at 675. This figure is representative of residents only and does not include transients who may be employed temporarily in town.

Social Tea and Sale

The ladies of the town and district are invited to a social tea and sale of fancy work at the home of Mrs. Lebow on Thursday from three to six. The proceeds are to be devoted to the Ladies Aid.

Mr. J. A. Lindsay was a visitor to Calgary on Saturday.

BORN—To Mr. and Mrs. Percy Peterman of Vulcan, on Thursday, May 23rd, a son.

The Misses May and Elizabeth Brims were visitors to Calgary for the weekend.

The city of Detroit has passed the million mark in population.

Reid Hill Girl Wins Gold Medal.

Miss Grace Chappell of Reid Hill, was successful in winning the Gold Medal offered in the essay contest in Calgary on Empire Day. She has been attending the Connought School at Calgary since last November.

The contest was open to all grade VI pupils in Calgary and was conducted by the Col. MacLeod, Chapter of the I.O.D.E. The subject of the essay was "The Beauties and Natural Resources of Alberta."

The award was made on Empire Day at the Cannought School by Mrs. Turner-Bone, Regent of the Chapter.

Mr. H. A. Sinnott occupied the chair, and Dr. J. Macartney Wilson made a few very appropriate remarks his subject being "Our Part in the Empire."

A pleasing program was given, including a song, "Joan of Arc," by Kenneth Clozier, a song and very clever drill by eight little girls, a recitation by Audrey Savage, navy song and drill by four boys and a song by Grace McGill.

SPOKANE TEAM IS OUT OF GAME

Looking for Likely Alberta Town Where They Can Settle

Spokane baseball club has been forced to the wall, and the manager Nick Williams, is loking for a good location for an aggregation of ball players. Having heard of Vulcan as a good sport centre he tried his chance here, but there is nothing doing. A. G. Spooner, the well known amateur baseballer of these parts, received the following wire from Williams on Tuesday: "Spokane club forced out of league. Is there any chance me managing club in that country? Can bring team with me."

COMMERCIAL BALL LEAGUE IS FORMED

Gaiety of Nations Is now Added to Bo Amateur Aggregations taking the Field.

Not to be outdone in the matter of sport with professionals in the field, the amateurs of the town have gone ahead and formed a town commercial league. Already there are three teams in the running, the Tigers, the Cubs and the Little Giants, and they are just about as dangerous as their names imply.

The following are the line-ups of the teams:

TIGERS—A. G. Sponer, D. C. Jones A. J. Flood, Clyde Hall, W. O. Torgerson, J. Wolfe, G. E. Pettman, G. M. Whicher, Roy Ferguson, Claude Clarke.

CUBS—W. H. Seevers, Rutherford, Marcellus, Butler, Robson, Red Seevers, R. L. Elves, F. L. Simington, Geo. Jacques, Bill Recor.

LITTLE GIANTS—Geo. Schroeder, John Shields, Doran, Isham, Geo. Recor, E. Depot, Leverington, Pat. Lapp, W. F. Muffay, H. Husfeldt, Bowman.

Schedule to be drawn up and play-two or three games a week. First game Thursday night. All collections to go to the Red Cross.

One more team wanted, so some of you baseball fans get busy and get a team in the league.

Horse Given to Red Cross

The local branch of the Red Cross society are the richer during the past few days by a horse, which has been donated by Mr. Peter Petterson, who resides just north of town. The horse is a three-year old sorrel colt, and it is given on the condition that it is raffled and the proceeds given to the Red Cross funds. The Society will raffle the animal in the near future, and take this opportunity of thanking Mr. Petterson for his very generous gift.

BORN—To Mr. and Mrs. Eastwood of Lake McGregor, on Monday, May 27th, a son.

SAILORS WEEK TO BE OBSERVED IN ALBERTA

Commencing on the King's Birthday, June 3rd and Ending June 8th.

Arrangements are being made throughout the Province of Alberta for a Sailors' Week, commencing on the King's birthday, June 3rd, and ending on the 8th with a Tag Day.

During the week a general appeal will be made to all citizens, men women and children to contribute something towards assisting the Navy League of Canada in caring for the widows and orphans of the men of the navy and the merchant service as well. The committee in charge of arrangements hope to raise at least $150,000 in Alberta.

Very little to date has been done in Alberta for the Sailors, particularly those of the Merchant Service. The navy league of England and the overseas Dominions has undertaken to care for the widows, children and dependents of the seamen who have lost their lives in defence of the Empire, and will endeavor to educate their children and give them a good start in life. The League is also looking after Sailor's Homes, Schools, Institutes, Asylums, Missions, etc. The Navy League of Canada is arranging to erect a building at Halifax, N. S., for the sailors at a cost of $100,000; and has also contribute $30,000 to assist the homes on the Pacific coast and the Great Lakes, besides sending $10,000 per month to the various Institutions in England, Already the League has forwarded $500,000. $250,000 for the navy men and $250,000 for the merchant service. There is a greater work to be done and money is urgently needed.

The sailors of the navy saved the empire. It is largely through the work of the navy that the Farmers of this country are enabled to obtain the present price for their wheat. Without the navy no food could cross the Atlantic, our boys in France could not be fed, and no transports, either from Canada or the United States, could be forwarded.

Anyone wishing to contribute can forward to the Editor of this paper, who will see that all amounts are sent to headquarters Alberta Division of the Navy League.

Ensign Red Cross Social.

On Thursday evening last a tea and social evening was given by the Ensign branch of the Red Cross society at the school house, the hostesses for the evening being Mrs. J. McMaster, Mrs. Wm. Parker, Mrs. Jackson and Miss G. Williams. The guest of honor was Mrs. Isabelle McIntyre of Athena, Ore., who has recently been visiting her two sons, Peter and Duncan McIntyre in the Ensign district. Mrs. McIntyre was in the district only two weeks, but in that time she made eleven knitted amputation socks for the local society. Mrs. McIntyre is over eighty years of age and yet does not need to use glasses for any work.

As a result of the evening the sum of $12.45 was raised for the Society.

On June the 14th the ladies are contemplating giving a concert and parcels post sale at the school house for the benefit of the Society.

: LOCAL ITEMS :

Owing to want of space in this issue the reports on the Ladies Aid performance and concert will apear in the next issue.

The sum of $210 was raised at the barn dance given for the Red Cross last evening by Mr. Guy Walker.

The Vulcan Encampment Lodge received fifteen new members in to the initiatory degree on Monday evening. The degree work was put on by the teams of the Lethbridge and Vulcan Lodges.

On Sunday, June 9th, the Odd Fellows will attend evening service at Vulcan church. The occasion will be a Memorial Service for Brethern who have fallen in the war.

Mr. J. T. Oliver of Calgary, spent May 24th in Vulcan. Mrs. Oliver and little daughter, who have been visiting Mr. and Mrs. J. A. Lindsay, returned to Calgary with him on Saturday.

Mr. and Mrs. W. E. Butchart were Calgary visitors on Monday and Tuesday.

Cadet and Mrs. R. D. Stowell are at present visiting in Calgary. Cadet Stowell is on his last leave prior to going overseas.

Miss Mary Smith of Warner, was visiting her parents here on Friday last.

Mr. and Mrs. J. H. Gordon of Warner, were the guests of Mr. and Mrs. M. L. Gordon, for the weekend.

Mr. and Mrs. C. B. Shimp, of Vulcan attended the funeral at Nanton of John Newton, a nephew of Mr. Shimp.

Roy Clark, the little son of Mr. and Mrs. Claude Clark, met with a nasty accident last Thursday, when he was out in an automobile. One of the wheels came off and he was thrown through the wind shield, receiving a bad cut on the nose.

Sergeant Frank Sykes, who was at one time on the Advocate staff, and at present with the C.A.M.C., was in town on Saturday. He is leaving shortly for Toronto in an effort to join up with the R. F. C.

Mrs. Maurice Lyman is the first person in this district to receive interest on the Victory Loan Bonds. The cheque arrived yesterday.

Mr. D. H. Galbraith left on Monday for Edmonton, where he will attend the Grand Lodge of the A.F. & A. M., as a delegate from the Vulcan Lodge.

Mr. Ed. Brown, who was in Vulcan some time ago in the barber business, returned to Vulcan last week and is clerk at the Imperial hotel.

Mr. Wm. Hill of Gleichen, was in town last week. He is rounding up a number of cattle which have strayed from the Buffalo Hills district.

O. W. Hogg, of Brant, shipped a load of cattle up to the market Tuesday night which were consigned to P. D. & H.

Mr. Smith of Champion, was one of the shippers Thursday, having a mixed car of cattle and hogs.

Mr. Chas. Clark of High River, was in town on Tuesday evening. He was accompanied by Mr. George Warren, the advance agent for the show "You're Next," which makes its appearance here on Wednesday, June 5th.

Empire Day holiday passed quietly in town. During the afternoon a large number of people motored or went by train to Champion to take in the celebration, returning for the dance at the Oddfellows hall in the evening.

The weather during the past week has been on the cold side, fairly heavy frosts being recorded each night. The past day or two has been warmer and it is likely that the weather has taken a change for the warmer. Although there have been local showers there has been nothing general or lasting. Some of the sprouting grain is looking rather brown by the frost but there is no danger of damage if early rains occur. The crops in the Reid Hill district are still looking the best in the surrounding country.

Canadian Northern Arbitration Board which has just given its decision upon the financial position of the Mackenzie and Mann railway system. Left to right: Sir William Meredith, chairman; Hon. Wallace Nesbitt, K. C.; and Hon. R. E. Harris, K. C., judge of the Supreme Court of Nova Scotia.

PROHIBIT THE SPEEDING INTO TOWN HABIT

One day last week a car coming into town from the southwest, was travelling so fast that the avoidance of an accident was a miracle. Fortunately there were no pedestrians or vehicles on the street at the time or an accident would have happened. The car struck a crossing and skidded, but it was travelling so fast as to be beyond the control of the driver and zigzagged from side to side of the road, bursting a tire and almost overturning.

Now, people who drive cars in such a reckless fashion deserve pretty nearly all that they get, but for the sake of the citizens it would be as well if the council would have a speed limit notice set up at various entrances to town. Some drivers think they are the only thing on earth and labor under the delusion that one toot of their horn guarantees a clear road. Furthermore no one can disillusion them of this fallacy. But people require protection from these speed artists and the sooner it is done, the sooner is accident safeguarded against.

THE COPP CHARGES

It would indeed have been passing strange, had not some changes of irregularity in regard to the taking of the soldier vote during the Dominion election not been made. It was left to Mr. A. B. Copp, liberal member for Westmoreland, N. B., to handle, and he brought thirty-two distinct charges, declaring that there had been a carefully-organized conspiracy to obtain the soldier vote at home and overseas, for the Union Government. The house on a straight party vote refused Mr. Copp's amendment asking for a judicial enquiry, but the minister of justice promised that all specific charges would be enquired into.

As to whether there is anything to Mr. Copp's allegations remains to be seen. It is more likely than not that there is a great deal to them. Not that that will make any difference at this date, it is safe to say that the Union Government would have won the election anyway, even if by a smaller majority. But what one resents about the attitude of the Government members is the almost insolent highlanded manner in which they received Mr. Copp's statement. If the allegations are true such could have been stated; if they are false they could have been refuted but either instance permission for enquiry should have been granted. Hon. Martin Burrell expressed surprise that time should be taken up on such a matter more particularly in view of the fact that apart from the soldier vote the Government would have been returned; Hon. A. L. Sifton was opposed to any investigation and said that the soldiers would have risen in rebellion if they had been asked to vote in any other way but for Union Government.

These honorable members are trading on the popularity of Union Government and they are succeeding very ably in cheapening it in the eyes of the country. Popularity of Government lasts just as long as the electorate have faith in it; after faith has gone not even men of political ability such as Mr. Sifton have not power or the ability to set it up again. The airiness with which members of the Government would have dismissed the whole affair is not playing the game. The charges are worthy of investigation and the truth should be known. Whether Union Government was returned or defeated is immaterial beside the fact that accusation of immoral and illegal methods are made against it.

CANADA'S PART IN THE WAR

Scarcely a week passes without one day of the seven hearing of some German action of more than ordinary Hunnish barbarity. To the sinking of defenceless ships, hospital and otherwise, we have grown accustomed; air raids on English towns have nothing more than a passing interest; the wrecking and burning of historical buildings leave us almost cold, and generally we have begun to accept the German and all his works as an integral part of the life of the war. Scratch a German and you find a barbarian, has shared the fate of other truths, its poignancy has been lost in repetition. Now and again we are awakened to the truth of that statement as we were last week when German planes bombed Allied hospitals behind the lines and inflicted further suffering and in some cases death to the patients and nurses.

It is these jolts into actual reality of what our enemy really is which bring us face to face with the fact of the war; revealing to us as if by searchlight flashed through darkness, our part in the struggle. Canada's part, in common with that of the rest of the Allies, is to vindicate a democracy as over against a barbarism which, in order to gain its militaristic end, its "place in the sun" tramples ruthlessly over accepted decency to the tune of "Deutschland Uber Alles." To a tune of its own composing, this ruthless barbarian machine would over run the world, reducing it to a servility to autocracy and military power. Anything standing in its way must be ruthlessly destroyed, killed without pity, whether it be a historic town or the civilian population of a small and unaggressive nation. "Woe and death to all who oppose me" said the Kaiser a few years prior to the war. At the time the remark was interpreted as something rather foolishly uttered and coming from a man who over estimated his power. Intervening time has revealed that he has not hesitated to put into practice his theory and not only against his enemies, for his own people have bled and suffered for the tinsel glory of the Hohenzollern. Armageddon was to be his stepping stone to world power. It will prove to be his downfall eventually. No injustice such as that of the Germans could ever be tolerated, and we have only to remember that Canada plays her part in this struggle for freedom to know that she has a soul and a national integrity that can never die.

LET IT START ON TIME

When the baseball game is scheduled to commence at a certain hour, let it start on time.

On Saturday evening a game scheduled for half past six did not commenec until ten minutes to eight; spectators who were on time had the doubtful privilege of shivering around for an hour and twenty minutes for the game to start.

The fault of this may rest with the visiting team. It invariably does, but the members of the league should have a hard and fast rule, with the penalty of a fine if broken, that all games must start on time. If this is not done there is going to be a distinct grumbling to say nothing of a poorer attendance. People are not going to spend from three to four hours at a baseball ground, frittering away half of their time waiting for the game to start. Procrastination is the thief of time, in this instance it is also the robber of the gate receipts.

REFLECTIONS

'Everything is on the blink
And when I sit down to think
I see one very great mistake
The builders of our law did make.

"They did conscript a lot of men
And they were doing just right then.
They must have men to fight the Hun,
But why should they conscript my son?

"Ben Johnson gave his son. 'tis true;
Brown's and Tompkins' boys went too;
And I was glad to see them go
To help subdue the devlish foe.

"But now they make their beastly law
Those lawyer ginks at Ottawa
To take my boy away from me
And send him o'er the raging sea.

"And leave me home to fret and stew;
I would be alright had they taken you
And let my boy stay with his dad,
A law like that just makes me mad."

Now that is something like the talk
I hear when I go out to walk
They wave a flag and shout and holler
It makes me hot beneath the collar.

I like a man that's man clear through
Always ready to dare and do,
Get right in and take your chance
To go and help the boys in France.

And if you bust a wing or get hit
You'll know you've been and done your bit,
And if you live so you'll come back
You'll be darn glad you didn't slack.

—Billie Bunk

And now it is upto some old timer to inform us when he knew a colder month of May in Alberta.

News reports state that the British are now masters of the aid situation on the Western front. Germany, however, still holds supremacy in the hot air situation.

Lloyd George says that victory in the war has developed into a race between Hindenburg and President Wilson. Let us back Wilson with every ounce of energy.

The sinking by German Submarines of a troop ship taking American soldiers to Europe is a reminder, among other things, that Uncle Sam's men are piling up in Europe all the time.

"We are dealing today with a ruthless Prussian despotism that is out for plunder, loot and pillage" says Lloyd George. And every man worth the name is out to defeat the said ruthless Prussian despotism.

One thing the rains do is to reveal the bad spots in the country roads, but unfortunately the district councillors are not getting about very much at that time.

Hon. A. L. Sifton, besides being minister of customs, is now minister of inland revenue as well. In a little while it will be difficult to see wherein the difference between Ottawa and Edmonton of happy memory lies.

Lord Rhondda, the British food controller, has announced that the sale of cheese in Great Britain will be regulated in future, but it is not known whether cheese will acquiesce voluntarily or have to be brought under conscription.

Ten million eight hundred thousand dollars is the sum the Dominion will pay for the C.N.R. and Sir Wm. McKenzie expressed the hope that the arbitrators would find the stock worth between forty and fifty million dollars. Which goes to show how much better it is for the people to own the railway.

The Ford is Now Considered a Necessity for Large-Scale Farming

WHETHER you are doing work on a large scale, or a small scale, you endeavor to reduce the delays of your farm machinery to a minimum and save time. A Ford will assist you in doing these two things.

If your tractor runs short of gasoline, the Ford will bring a few cans right to the spot and greatly shorten the delay. Or if you need a repair, or some new plow points, you can "run" the errand to town and back in one-third the time it would take with a horse and rig.

With a Ford you can supervise the work on your ranch much more thoroughly. You can get your mail and supplies oftener, and take more enjoyment out of prairie life. A Ford will do all these things and many more, and at the same time save you money.

The strength and endurance of the Ford has been proved the world over. It is equal to the western roads and the distances.

The Ford is *the* car for the Western Farmer.

RURAL MUNICIPALITY OF DINTON, NO. 189

A meeting of the Council of the Rural Municipality of Dinton No. 189 was held at Blackie on the 21st inst.

There were present, Councillors J. A. Green, Wm. Farrell and George Moss, and Reeve A. W. Orr occupied the chair.

The minutes of the last previous meeting were read and adopted.

The following bills and accounts were presented, and ordered to be paid:

High River Times, advertising	71.36
West. Mun. News, tax notices	10.00
Robt. Wilkinson, coal	5.30
D. W. McDerby, rubber stamp	1.30
Blackie Co-operative Asso., lumber	253.80
Hugh Leslie, Councillors fees	40.00
S. W. Snyder, expenses to court at Calgary	10.50
Total	392.26

Following the report of J. A. Green on the N.W. ¼ of Sec. 2-20-25-4th, the same was entered into second class land.

A letter of resignation from Councillor H. R. Leslie was read. His resignation from the office of Councillor was accepted, and on the motion of J. A. Green, Geo. Moss was appointed Returning Officer to preside at the nomination meeting and election for a new councillor to take the place of H. R. Leslie.

A letter from the Supplementary Revenue Tax Commissioner was read, advising the Council and Treasurer, that the 1918 rate for the Supplementary Revenue Tax has been fixed by the Government at 4 per cent per acre on all rateable land within the boundaries of this Municipality.

A letter from the School Lands Branch of the Dept. of the Interior at Ottawa, was read, stating that no school lands anywhere in this district will be offered for sale this year.

The 25 foot lot which the Municipality owns in the village of Blackie was sold to Mr. Wm. H. Miller for the sum of $200.00, and the secretary was instructed to draw up the necessary papers for the transfer of said lot to Mr. Wm. H. Miller.

Mr. H. Wright appeared before the Council and spoke regarding a fence, and subway, on the division on road allowance along Section 5-20-25-4th. Reeve A. W. Orr and Councillor J. A. Green were appointed to go out and look over the ground, and report at the next meeting.

It was decided to have considerable road work done with an elevator grader outfit this summer, at a certain price per day instead of by specified contract. Several of the Council have seen the outfit of Messrs. Timothy & Brierly of Edmonton, in operation, and after hearing the report on same from these councilors, it was decided to hire this outfit.

The secretary was instructed to advise the Dept. of Public Works at Edmonton, that the following places need repairing: The Government bridge across the Arrowwodd Creek on road allowance between sections 10 and 11 in 20-25-4th. The road down the hill leading to the ferry across the Bow river south of Carseland.

Mr. Thos. Green was present, and explained the advisability of cutting down the hill on the road allowance near the bridge across the Arowwood Creek, between sections 10 and 11, in 20-25-4th. It was decided to have this work done.

Mr. A. M. Ramsay, Manager of the Union Bank at Blackie, was appointed official auditor for 1918.

The following wage scale for road work was fixed:

Man and team 80c per hour.
Extra horses, 1.50 per day.
Slip holders, 4.00 per day.
Foreman, 4.50 per day.
Nine hours shall constitute one day.

Moved by Wm. H. Farrell that this meeting now adjourn.

S. W. Snyder, Sec.-Treas.

U. S. TO SEND THREE MILLION BUSHELS OF WHEAT TO BELGIANS

Food shipments to the civilian populations of the allied countries will be suspended for ten days to move three million bushels of grain to the Belgians, who are declared to be in desperate straits.

A part of the wheat will go to the populations in the German occupied territory of Northern France. The decision to concentrate on the shipment of this grain was made following the receipt of urgent cablegrams from the Belgian Relief Commissioner's representative in Brussels. One of the cables said: "Provided all shipments now en route arrive and provided an equal distribution between all parts of the country Belgium and Northern France will be without bread from exotic grains for 20 days.

Can You Value Printing?

IT sounds a simple question, but how many men of your acquaintance treat the printed matter end of their business as anything more than a casual adjunct to their business, something to order and leave with the printer for completion? And yet it is far more than that. Printer's ink has revolutionized every business under the sun and is playing as big a part in the war as any other force. Take this into consideration when next you place an order and if you want it done effectively and economically, giving the best value for your outlay, leave it with

VULCAN BALL TEAM

The Vulcan baseball team is away to a good start, having won three games in succession and in every instance by scores which leave no doubt as to the strength of the home team.

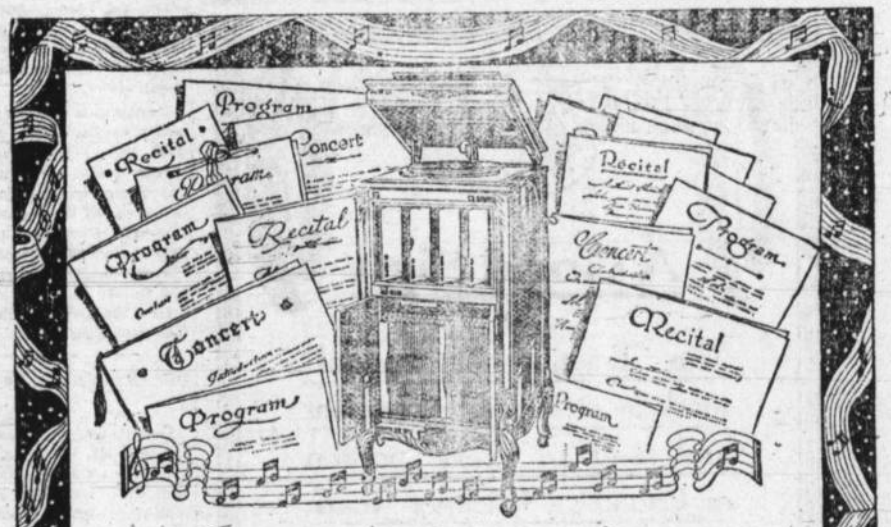

All the games were of a tame nature and little or nothing was shown of the real form of the Vulcan team. There was no necessity for them to get down to business.

The games played were: Lomond at Lomond, May 22nd, Vulcan 8, Lomond 3; Batteries: Vulcan, Brown and Ishom, Lomond, Bellas and Cox.

Champion at Champion, May 24th, Vulcan 13, Champion 4. Batteries, Vulcan, Brown and Duckett, Champion, Hummel and Timmins. Home runs for Vulcan by Godfrey, Grey and Brown. Buckley made two 3-base hits.

Lomond at Vulcan, May 25th, Vulcan 15, Lomond 3, batteries, Vulcan Haines and Duckett, Lomond Bellas and Cox.

Owing to the break in arrangements at Claresholm, the "Daughter of the Sun" was not presented at that point on Tuesday evening. The Company remained in High River and that evening provided music for a dance, which proved most enjoyable to the many people who attended. Ten per cent. of the proceeds were donated to the

AMERICANS IN CANADA TO REGISTER JUNE 22

Has No Direct Connection With Military Service Consul Advised

Harold D. Clum, the United States consul in Calgary, has recently received numerous inquiries as to whether American citizens are obliged to register in the man-and-woman-power registration which is to take place on June 22. It is stated that many appear to think that possession of a certificate of registration from the consulate or a card showing registration for the United States military service, or even a birth certificate or other evidence of American citizenship will excuse them from registering on the date mentioned.

These, states the American consul, are all mistakes which are likely to lead to serious trouble. The consulate is authoritatively advised that the man-and-woman-power registration has no direct connection with military service and does not render anyone liable for military service. It makes no distinction of nationality and does not affect one's citizenship in any way. It is the nature of a census of the man and woman power of the country. Every person in Canada who is 16 years of age or older (with certain specified exceptions which do not concern the average person) will have to register on the day apointed, June 22, and the consulate strongly urges Americans to do so, as there are penalties for those who fail to comply with the order-in-council.

Registration in the American consulate, states Mr. Clum, or for the United States military service can not take the place of this registration on June 22. The man-and-woman-power registration under the Military Service Act, to which Americans are not subject at present.

MEN OF 19 REGISTER BEFORE JUNE 1st

In another part of this issue there appears a notice relative to the Military Service Act, respecting men of 19 years of age. Every male British subject resident in Canada born on or since October 13th, 1897, who has attained or shall attain the age of 19 years, and is unmarried or a widower without children must (unless he is within one of the classes of persons mentioned in the schedule of exemptions to the Military Service Act) report on or before the first day of June 1918, or within 10 days after his 19th birthday, which ever date shall be the latter.

The report, which must be in writing, must give full name and address, also usual post office, and date of birth, and must be addressed to the registration district in which he resides, and must be sent by registered mail, for which no Canada postage is required.

Young men reporting will not be active service until further notice. They must, however, notify the appropriate restrar or deputy registrar of any change of residence or address. On receipt of the report an indentification card will be forwarded which will protest the bearer from arrest. Punctual compliance is of great importance and failure to report within the time makes the deliquent liable to immediate apprehension.

DEPARTMENTAL EXAMINATIONS

Departmental examinations for Grades VIII, IX and XII will be held this year on June 17th, 18th, 19th, 20th, 21st, 24th, 25th and 26th at the following centres: Barons, Blackie, Carmangay, Champion, Gleichen, Granum, High River, Lethbridge, Lomond, Nanton, Okotoks, Stavely and Vulcan.

The department will supply the required foolscap, drawing paper squared paper and ink but candidates shall provide themselves with rules, compasses, penholders, etc. Candidates writing on the examinations in drawing must provide themselves with a soft suitable brush or brushes. For the work in water color a supply of water and conveniences for cleansing the brushes should be available.

Candidates who have not already selected one of the above centres should advise the Board at once at which centre they desire to write.

The dining room employees on the C.P.R. lines are threatening to strike as a result of the decision of the Company to employ only colored waiters on this service. It is stated that the Company claims that the dismissal of white dining car employes will release a large number of men who should be employed in occupations more directly with the war.

SMALL PROFIT ON HOGS

The present cost to produce a hog finished for the market, where maintenance, breeding, and feeding charges for the dam are properly charged, and where a conservative percentage of the feeding and breeding costs is added to cover overhead charges and risk, would appear from estimates at the Central Experimental farm to average $20. A fair, but not excessive profit should be possible with present pork prices where good management is applied. —Agricultural Gazette.

The British armed troop-ship, Moldavia, with American troops on board, was torpedoed off the Southeast coast of England on Thursday morning. With the exception of 53 American soldiers, all on board were saved and landed safely in a British port.

The Ainsley Coal Mine at Medicine Hat, which was purchased by an Oklahoma Company not long ago, will be developed to a capacity of 1,000 tons a day. This means a great deal to what is now known throughout Canada as the Gas City. In the agreement between the City and Company, the former will supply electrical energy for operating mines at 1½ cents per killowat. The price of coal as appears to the local market is regulated as follows: Slack coal $1.00 per ton; mine run $2.60; lump coal, car lots $3.50. This will prove a great boon to the farmers of that locality.

CHANGE IN TRAIN SERVICE

Fffective June 2nd, 1918 there will be a general chance in train service. Times for trains at Vulcan will be:

Northbound	Southbound
Train No. 543, daily, 4.36 a.m.	Train No. 544 daily 12.48 p.m
No. 544, daily ex. Sun. 11.00 a.m.	No. 511, daily ex. Sun. 6.52 p.m

For further particulars apply

J. E. PROCTER,
District Passenger Agent
Calgary.

NOTICE TO RATEPAYERS OF THE MUNICIPAL DISTRICT OF MARQUIS, 157

All ratepayers holding slush scrapers, plows or other equipment belonging to the Municipality will kindly notify the secretary at once. Prosecution will follow non-compliance with the order. R. E. House, Secretary-Treasurer. 43-3

SYNOPSIS OF CANADIAN NORTHWEST LAND REGULATIONS

THE sole head of a family, or any male over 18 years old, who was at the commencement of the present war, and has since continued to be a British subject or a subject of an allied or neutral country, may homestead a quarter section of available Dominion Land in Manitoba, Saskatchewan or Alberta. Applicant must appear in person at Dominion Lands Agency or Sub-Agency for District. Entry by proxy may be made on certain conditions. Duties—Six months residence upon and cultivation of land in each of three years.

In certain districts a homesteader may secure an adjoining quarter section as pre-emption. Price $3.00 per acre. Duties—Resides six months in each of three years after earning homestead patent and cultivate 50 acres extra. May obtain pre-emption patent as soon as homestead patent on certain conditions.

A settler after obtaining homestead patent, if he cannot secure a pre-emption, may take a purchased homestead in certain districts. Price $3.00 per acre. Must reside six months in each of three years, cultivate 50 acres and erect a house worth $300.00.

Holders of entries may count time of employment as farm labourer in Canada during 1918 as residence duties under certain conditions.

When Dominion Lands are advertised or posted for entry, returned soldierswho have served overseas and have been honorable discharged, receive one day priority in applying for entry at local Agents Office (but not Sub-Agency.) Discharge papers must be presented to Agent.

W. W. CORY, C. M. G.
Deputy of the Minister of the Interior

AERAL MAIL SERVICE

We read recently in the papers of the appointment of Miss Katherine Stinson as a United States aerial post-woman with her route between New York and Chicago. At the same Lieut. Torrey Webb and Lieut. J. C. Edgerton were assigned to the Washington-New York route. At 11:30 a. m. the former left New York. At 12:30 in Philadelphia he handed over his 144 pounds of mail to his associate who delivered it in the capital at 2:50 p. m. The actual flying time was three hours and twenty minutes. This is a trifle slower than the schedule called for, 95 miles an hour. In celebrating the event several aeronaoutic authorities declared that there would soon be a network of aerial postal routes throughout the country, while the president of the Aero club forecasted a transatlantic flight during the present year.

SPECULATION IN GRAIN

Those who have been following the market prices of oats and barley will be surprised with the rather sudden drop in prices in the two grains. In March oats went over $1.00 per bushel and barley was nearly $2.00. At the present time oats are selling at between 75 and 80 cents and barley is under $1.40 per bushel. As far as we can ascertain there has been no change in the market situation that would warrant these changes in prices. If the supply and demand only warrants these prices at the present time then the higher prices in March were unwarranted. Further, the 1918 crop is as yet so far off that it can not affect the cash price of these grains at the present time.

It takes us back to the old problem of our grain markets and speculation in grain as a factor in setting the price to the producer to his disadvantage. We know that the pre-war times fictitious market reports and the selling of huge quantities of grain on paper were methods utilized to pound down the price of grain just as it was coming on the market, and that for some unknown reason prices began to rise once the bulk of the grain was in the dealers' hands.

It is useless, however, to discuss and rant over these past conditions. These past and present conditions should go into history as a thing of the past. What is necessary at the present time is a study of marketing grain and the devising of a marketing system that would make impossible the manipulation of markets by speculators. Now when our main crop, wheat, has been taken out of the speculators' hands, is a very opportune time to make a thorough study of past methods in our grain markets and the planning of a system of marketing that would eliminate profiteering in grains by speculators at any time.

We candidly admit we have no suggestions to make. We are not as conversant with the intricacies of the grain trade as to warrant making suggestions, but in our opinion the organized farmers should make a thorough study of marketing methods of the past and present with a view to having our markets more nearly reflect the supply and demand in regard to prices paid for our wheat, oats, barley and flax.

Five men died at Windsor, Ont., from poisoning due to the use of denatured alcohol intwo per cent beer. One man is being held by the police. The alcohol is supposed to have been smuggled over from Detroit, Mich., and sold to the victims.

AUTOMOBILE IS A NECESSITY TODAY

Has Become Important Factor In Transportation For All Business

Stop for a moment and think of what it would mean if we did not have passenger automobiles to use. What would we do for a quick method of transportation? Where could we find a satisfying substitute?, asks Mr. J. Wolfe, local Chevrolet automobile dealer.

We look upon the railroad as an important method of transportation, but as a fact, it is restricted compared with the automobile. The automobile will take you to places that the railroad cannot reach. Each automobile owner has, in reality, a private railroad. He is President, Vice-President and General Manager. And in addition he is his own time-table. The automobile gives its purchasers a travel independence that is well-nigh complete.

Without the automobile the world would almost come to a standstill. What would the doctor, the salesman, the business man, do without an automobile, in these busy days of commercial pursuits?

But, and perhaps most important of all, what would the farmer do without his car?

To him the automobile has been a transformation. It would be an absurdity to call the automobile the farmer uses a "pleasure" car. It would be as logical as to call the reaper, or any piece of farm machinery a "hand organ."

On the farm, the automobile is a one hundred per cent utility. It is the connecting link between farm and the outside world. The uses of the automobile are many and so varied in character that a catalogue of many pages could be compiled, setting forth the multiplied uses of the farmer's car.

If you have any wheat left, even to a few bushels, put it into the local elevator where it can start on its way to assist in ekeing out the supplies of food in the Allies' hands until our next crop is harvested.

HOW GENERAL FAYOLLE CLOSFD THE BREACH

This diagram shows the critical situation about March 24th, the British armies in retreat westward on the left, and a gap of nearly thirty miles between there and the Fhench Sixth Army. The gap was first held and then closed by the magnificent efforts of General Fayolle and his detachments until a battle front could eb built up. —The Sphere.

HOW RETURNED MEN ARE RE-EDUCATED

The Institute of Technology and Art at Calgary is doing excellent work in connection with the civil re-establishment of returned soldiers. At the present time there are 150 returned men in attendance who show great interest in their chosen vocations. There are just now fifteen different courses in which many trades are represented. These include motor mechanics, gas engineering, electrical work, telegraphists, and a long range of other branches.

A visit to the institute proves of great interest to those who are interested in the returned soldier question. The course of training extends for a period of six to twelve months and is supervised by instructors who are carefully chosen and who are in close touch with the business requirements of their department. The aim is not only to make the men efficient for the present but also capable of holding their positions permanently. Many have already graduated and now occupy excellent berths not only in cities but in the rural districts. Already many firms have put in second and third requests for mechanics and clerks trained at the Institute.

GO TO WORK OR GO TO GAOL

It appears that a very drastic law has just passed, a law which demands that all over 16 years of age and under 60 years must work unless they suffer from some physical infirmity. The penalty of indolence in men is six months in gaol or a fine of $100. Who will this hit Do you know anyone between 16 and 60 who belongs to the idle rich, or who was born tired? Pass his name along to the officials and he will be compelled to do something quickly. While this law infringes upon human liberty, yet it is alright and the man who does not like it is probably of that class who live on the work of others.

This is the time of the year to make your old weather worn house look like a palace by applying a couple coats of paint. One dollar spent in paint will bring you back ten dollars in appearance and self respect.

TAXING YOUNG BACHELORS

Australia may have failed to put conscription into effect, but has never failed to share the burden of the war. Its contribution is beyond calculation, both in men and in material. Now it intends that the weight shall not fall entirely on the shoulders of the willing, so it has ordered a tax of 10 per cent to be placed on the taxable income of all unenlisted men who are eligible for service in the ranks. This is only fair to the men who are fighting the battle to keep the enemy from the shores of the Commonwealth. Those who have the benefit of the music should help to pay the piper.

A bill introduced in Congress makes disloyal utterance a cause for revocation of U. S. citizenship.

The London Times published recently news to the effect that Germans are torturing and killing British prisoners. And still we have the pacifist with us.

Because the war indemnity which Germany will demand from Great Britain and the United States "will cover the deficit" the German minister of finance is opposed to an income tax in Germany, similar to the one in Great Britain. The announcement was made recently in the Frankfurter Zeitung.

The twenty-five per cent increase in the bacon production of the province is to be accounted for by the large returns that were to be obtained and by a genuine desire to be of patriotic service. The last has been a considerable factor, no matter what cynics may say. Nor should the excellent work that has been done in stimulating effort by those in charge of the campaign for greater hog production be overlooked. It is one thing for a need and an oportunity to exist and another to drive the fact home.

NOTICE

Notice is hereby given that Harry Watson Noel, of Vulcan, in the Province of Alberta, intends to apply for a license to operate a pool room at Imperial Hotel, Vulcan Street. The application has been approved by W. E. Butchart, Reeve of Council.

FLOUR MILLS MAKING BIG PROFITS IN WAR

May Increase The Tax On The Net Profits Declared, Says Minister

A story of big war time profits by large Canadian milling companies is revealed by the minister of labor. The report is based on investigations covering the period between 1913 and 1917 and therefore for purposes of comparison, includes a pre-war year. It shows that in 1917 as compared with 1913, large milling companies heavily increased their net profits after allowance had been made for war tax. It indicates further that the limitation of profits to 25 cents a barrel for flour does not affect the purpose for which it was intended in that "with increased production even where the profits per barrel of flour in limited to, say, 15 cents, still ample dividends might be paid and reserves set aside."

"It is clear," the report concludes, "that the only way to reach the profits of the milling companies is to increase the tax on the net profits on total investment."

The report covers over sixty written pages. It aims to show in detail how profits have been derived and shows what proportion of a company's capitalization is represented by investment, what profits per barrel of flour are, and what revenues were derived from option trading in wheat before the price of wheat was fixed.

Increased profits, the report indicates, are due largely to increased production and increase in turn-over which in 1917 was two to three times that of the pre-war year, although in most cases there was some increase in the profit per barrel of flour.

IS IT TRUE ?

Seven dozen people, already, this spring, have been telling us what we ought to do on our farm, says a writer in the American Poultry Journal. We know well what we would like to do, and we also know just about how much we will be able to do. With four in the family, all busy from sun-to-sun, and much later for the elders, and a hired man who will only work 9 hours, or from 7 a. m. until 5 p. m.—with an hour off for dinner—we find we have to do whatever task happens to most need doing. There are many things which should be done and have to be left undone, either from lack of time or lack of funds. But city friends, with easy hours, seem to think they confer a favor when they drive out to the farm, for an automobile ride, and advise us what we ought to do in our spare time. Just as if there ever was such a thing as 'spare time' on a farm. We wouldn't mind it if they would take off their coats and pitch in to help, or if they would not expect us to quit work to entertain them, for we really do enjoy a reasonable amount of company—but we do balk at so much advice on how to run our business, from people who do not know what real work and long hours are like. Also, it gets our goats to be asked for chickens, eggs, and other produce, as if it cost us nothing and we ought to be glad to give it away. We enjoy giving as a voluntary offering, but we do not like to have people try to use us. We wonder how a city merchant would feel if we walked into his store, tried to tell him how to run his business, and then asked for a gift of some of his choicest goods to take home. We'd expect to get kicked out and asked to stay out. However, there are lot of people who seem to think that food ought not to cost anything, and that they should be fed for nothing.

NEW BANKING HOURS IN EFFECT JUNE 1st

The local banks have been notified through their head offices of new bank ing hours adopted by the Canadian Bankers' Association, which comprises all the chartered banks.

The new hours go into effect June 1 and are from 9:30 a. m. till 2:30 p.m. daily except Saturday, on which day the hours are from 9:30 a.m. to 12 noon. This means that the banks will open for business a half hour earlier than at present and will close a half hour earlier except on Sunday when the doors will close at 12 instead of 1 o'clock.

The reason for the change is an effort to get more time after closing each day for the large amount of detail work necessary to keep the records up to date. This has presented a special difficulty of late in view of the large number of comparatively inexperienced clerks on the staffs, owing to enlistment.

THE MAN POWER ACT

Saturday, June 22nd, has been appointed registration day under the Man Power Act. In many respects it will be like election day. All persons between the ages of 16 and 60 being required to come out and register at a booth. As there are at least twice as many people who come under this category as there are voters at any ordinary election it is going to be a very busy day for the people who have it in hand. As the government wishes to save expenses in the registration school houses and public buildings only will be used for registration booths.

The department of Ontario farmers who waited upon parliament at Ottawa last week to protest against farmers being drafted is said to have been largely political. An Ontario paper says: "The deputation and its mission was largely political. It is estimated that fully 95 per cent of the delegates wer opposed to the Union Government last December and they were not averse from showing it last week."

"I believe this war will have been fought in vain if at its conclusion the Kaiser and his war lords do not find their heads in a noose," said John Hodge, British Minister of Pensions and a labor party leader, in an address today. "An inconclusive peace would be a greater disaster than continuance of the war. No matter what the sacrifices, we have got to fight to the finish."

EXTRACTION IN MILLING IS LENGTHENED

Which Means A Shortage Of Bran And Shorts To Meet The Demand

The extreme need of our Allies in Europe for every pound of flour and every bushel of wheat that could be spared has necessitated the lengthening of the extraction in milling. Under ordinary conditions about 270 pounds of wheat would be used to make 196 pounds of flour, and allowing 3 pounds for waste there would remain 71 pounds of offal, but about 10 pounds of the lower grade flour would be added to the shorts to make middlings so that there would be a total of about 81 pounds of feed produced. Under the order now in force the mills must make 196 pounds of flour out of 258 pounds of wheat and cannot turn any back into the shorts, so that today only 59 pounds of feed are made in the process of grinding a barrel of flour, and the richer feeds cannot be made at all. Taking an equal amount of wheat in each case, this means that almost 25 per cent less feed is being made than before, which of course has made the feed problem still more difficult.

It is entirely out of the question for the mills under these conditions, to ship full carloads of bran and shorts to meet the demand for feed without causing users at other points to suffer. It would make no difference to the miller whether he sold in full carloads or in less than carloads, for his price to the trade is fixed at the same amount per ton in both cases, but the best and fairest method of distribution has required shipment in smaller quantities. If a dealer does not require flour or some other cereal produce to fill a car, this of course involves the payment by the dealer of the higher freight rate charged upon l. c. l. shipments. This difference in freight may run form $1.00 to $10.00 per ton according to distance. Dealers are naturally anxious to avoid this extra cost, which might put them at a disadvantage as compared with competitors in the same district who could fill a mixed car, and although there is no extra profit to them the millers do not desire their customers to be at a disadvantage if they need oats barley, oatmeal or flour which could be used to fill the car. There is, however, no such thing as compulsion on the part of the miller nor any financial object on his part in insisting since he can make no more money by doing so and already has a bigger market for all his products than he can fill.

CROWN LANDS ARE BECOMING EXHAUSTED

In view of the rapid exhaustion during recent years of available Crown Lands in close proximity to the railways, a shortage which has been accentuated by the reservation in the interests of soldier settlement, the desire on the part of the prospective settlers to procure land within reasonable distance of a line of transportation has suggested to the Department of the Interior the listing of the names and addresses of the owners of those quarter-sections of unoccupied and non-producing lands which are lying dormant so far as agricultural production is concerned, the presumption being that in a number of cases the owners would be interested from either a financial or patriotic point of view in offers on the part of prospective settlers to purchase or lease their holdings.

The vital necessity for increasing the acreage under crop makes it essential that assistance be rendered by all agencies that might be instrumental in assisting the "back to the land" movement. Now that the truth of the somewhat crude expression attributed to Napoleon that "an army travels upon its stomach" is being emphasized more and more as the "Great War" progresses, no better argument could possibly be advanced as to the imperative need for increasing our production which of course entails an immediate increase in the acreage under crop.

The lists are available for distribution covering the various land districts throughout the Province of Manitoba and Saskatchewan, those for Alberta to follow at an early date. Applicants should state the district in which they are interested when making application to the Natural Resources Intelligence Branch of the Department of the Interior at Ottawa.

The Germans are dropping peace propaganda from airoplanes over the British and French lines on the Western front. Recently they distributed among the French in Flanders, newspapers, evidently printed by French civilians in the occupied portions of France.

AMOUNT OF FLOUR FARMERS MAY HOLD

Quantities Flour And Sugar Vary According To Distance From Supply

An order has been issued by the Canada Food Board setting forth certain conditions under which persons may be allowed to hold flour in excess of the limited amount prscribed by the order of April 25.

It is provided that a bonafide farmer may hold, subject to the order of the Canada Food Board, the amount of flour made wholly or in part from wheat which he may have in his possession in excess of the amounts prescribed by the order April 25, on the condition that on or before June 15, he reports to the miller or dealer from whom it was purchased, or by whom it was manufactured, the excess amount held by him. It shall then be the duty of such miller or dealer to report all such holdings to the Canada Food Board.

Any person holding or having in his possession not more than 25 pounds of flour made wholly or in part from wheat, or who holds or has in his possession on May 17 part only of one original package in which such flour was purchased, though the amount exceeds 25 pounds, may retain the same. All flour held in excess of these amounts must be returned.

Regulations governing people who live a distance from town are:

A person living a greater distance than two miles, and less than five miles from a dealer licensed by the Canada Food Board, may have in his possession or under his control, flour made wholly or in part from wheat not more than is sufficient for his ordinary requirements for a period not exceeding 30 days; a person living at a greater distance than five miles and less than ten miles, may have a quantity for a period not exceeding 60 days, and for a person living ten miles or more a supply for one hundred and twenty days.

Sugar is regulated by the same quantities.

FLAX SEED PRODUCTION

The Colonial Secretary has requested that publicity be given to the fact that an arrangement has now been made with the Wayland Company of Winnipeg, to carry out the British Government's programme for flax seed cultivation in Canada. It is represented that the present situation in Russia and the greatly increased national demand for aeroplane fabric make it essential that every effort should be put forth to increase the cultivation of flax within the British Empire. Great importance is attached by the War Office to the success of Colonel Wayland's efforts to the end that the cultivation of flax seed in Canada receive all possible skill and care from the farmers concerned. In the present circumstances the production of flax seed is regarded as of equal importance with that of wheat or any cereal.

NEW REGULATIONS IN FORCE

The critical condition of food supplies for the Allies during the next few months has led the Canada Food Board to pass additional orders affecting wheat and flour. It has been made illegal for farmers, or anyone else, to use any millable wheat for feed for any kind of animals. Consumers are prohibited from accumulating stocks of flour beyond their actual current needs and must return to dealers any excess they have been hoarding, and dealers must report their excess stock which will be returned to the millers or disposed of as the Canada Food Board directs.

Mr. C. L. Hess, of Blackie district, sold his farm recently to Mr. J. Anderson for a good consideration. This farm has a history, it being known at one time as the High River Experimental farm, with Mr. Hanson as manager. Pupils were enrolled from points in England and upon arrival here were taught practical farming methods by the versatile manager. Unfortunately the farm school did not prosper and the place was sold to Mr. Hess.

U. F. A. Sunday was observed throughout the churches in the country districts of Alberta on Sunday. Mr. H. W. Woods, President of the U.F.A. spoke at Stavely and Claresholm.

More than two hundred thousand American troops will be sent aboard during May and that number probably will be much exceeded next month. The U. S. A. Aviation situation shows no appreciable betterment.

CANADA

MILITARY SERVICE ACT, 1917

PUBLIC NOTICE is hereby given that, by the effect of the regulations of the Governor General of Canada in Council of the 20th of April, 1918, and the Proclamation of 4th May, 1918, recently published, every male British subject resident in Canada, born on or since the 13th of October, 1897, who has attained or shall attain the age of 19 years and who is unmarried or a widower without children must, (unless he is within one of the classes of persons mentioned in the schedule of Exceptions to the Military Service Act) report as hereinafter directed on or before the 1st day of June, 1918, or within ten days after his 19th birthday, whichever date shall be the latter.

Such report must be in writing and must give his name in full, the date of his birth and his place of residence and also his usual post office address.

The report must be addressed to the Registrar or Deputy Registrar under the Military Service Act of the Registration District in which he resides (see below) and shall be sent by registered post, for which no Canada postage is required.

Young men so reporting will not be placed on active service till further notice. They must, however, notify the appropriate Registrar or Deputy Registrar of any change of residence or address.

On receipt of the report an identification card will be forwarded by the Registrar which will protect the bearer from arrest.

Punctual compliance with these requirements is of great importance to those affected. Failure to report within the time limited will expose the delinquent to severe penalties and will in addition render him liable to immediate apprehension for Military Service.

ISSUED BY THE DEPARTMENT OF JUSTICE, MILITARY SERVICE BRANCH, this 15th day of May, 1918.

NOTE: The men required to report should address their reports as follows:

ONTARIO—To the Deputy Registrar under the Military Service Act, 1917, London, if they reside in the County of Essex, Kent, Lambton, Elgin, Middlesex, Oxford, Waterloo, Wellington, Perth, Huron, or Bruce.

To the Registrar under the Military Service Act, 1917, Toronto, if they reside in the County of Lincoln, Welland, Haldimand, Norfolk, Brant, Wentworth, Halton, Peel, York, Ontario, Grey, Dufferin, Simcoe, or in the Districts of Muskoka, Parry Sound, Algoma and Nipissing north of the Mattawa and French rivers (including the Townships of Ferris and Bonfield.)

To the Deputy Registrar under the Military Service Act, 1917, Kingston, if they reside in the County of Durham, Northumberland, Victoria, Peterborough, Hastings, Prince Edward, Lennox, Addington, Frontenac, Haliburton, Carleton, Dundas, Glengarry, Renfrew, Russell, Stormont, Grenville, Lanark, Leeds, Prescott, or the District of Nipissing south of Mattawa river (exclusive of the Townships of Ferris and Bonfield.)

To the Registrar under the Military Service Act, 1917, Winnipeg, if they reside in the Districts of Kenora, Rainy River, or Thunder Bay.

QUEBEC—To the Registrar under the Military Service Act, 1917, Montreal, if they reside in the County of Jacques Cartier, Hochelaga, Laval, Vaudreuil, Soulanges, Napierville, Beauharnois, Chateauguay, Huntington, Laprairie, Argenteuil, Terrebonne, Two Mountains, Montcalm, L'Assomption, Joliette, Berthier, Maskinongé, St. Maurice, Three Rivers, St. Johns, Iberville, Missisquoi, Brome, Shefford, Rouville, Chambly, Verchères, St. Hyacinthe, Bagot, Drummond, Richelieu, Yamaska, Nicolet, Arthabaska, Sherbrooke, and Stanstead.

To the Deputy Registrar under the Military Service Act, 1917, Quebec, if they reside in the County of Wolfe, Richmond, Compton, Beauce, Bellechasse, Bonaventure, Dorchester, Gaspé, Kamouraska, Lévis, L'Islet, Champlain, Charlevoix, Chicoutimi, Montmorency, Quebec, Portneuf, Saguenay, Lotbinière, Montmagny, Matane, Mégantic, Rimouski and Témiscouata.

To the Deputy Registrar under the Military Service Act, 1917, Hull; if they reside in the County of Timiskaming, Pontiac, Ottawa and Labelle.

NOVA SCOTIA—To the Registrar under the Military Service Act, 1917, Halifax, if they reside in the Province of Nova Scotia.

NEW BRUNSWICK—To the Registrar under the Military Service Act, 1917, St. John, if they reside in the Province of New Brunswick.

PRINCE EDWARD ISLAND—To the Registrar under the Military Service Act, 1917, Charlottetown, if they reside in the Province of Prince Edward Island.

BRITISH COLUMBIA—To the Registrar under the Military Service Act, 1917, Vancouver, if they reside in the Province of British Columbia.

SASKATCHEWAN—To the Registrar under the Military Service Act, 1917, Regina, if they reside in the Province of Saskatchewan.

ALBERTA—To the Registrar under the Military Service Act, 1917, Calgary, if they reside in the Province of Alberta.

MANITOBA—To the Registrar under the Military Service Act, 1917, Winnipeg, if they reside in the Province of Manitoba.
